John doe
John broke his 2 day streak and the whole neighboorhood can probably smell him
Jessica myers
Celebrating 100 days, the stinkies don’t understand how this feels
Brain stink
John broke his 0 day streak: he will never make it to 1.

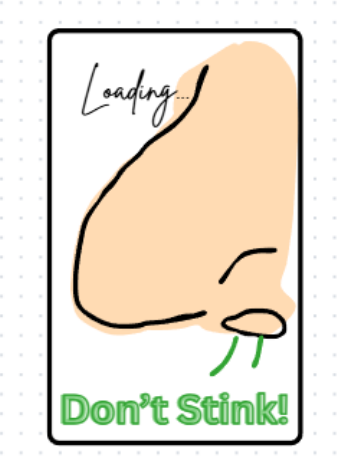
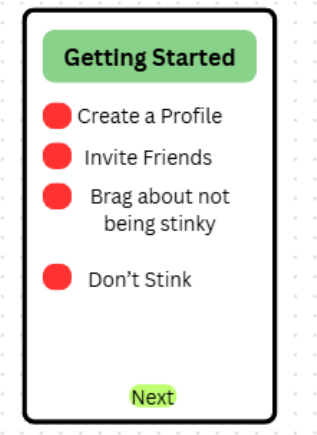
Friends Leaderboards

Setting up the app scenario:

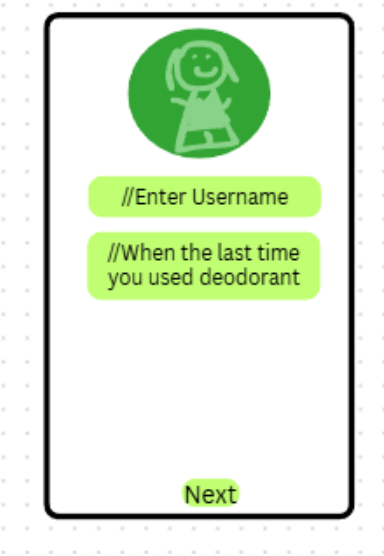
Loading screen:



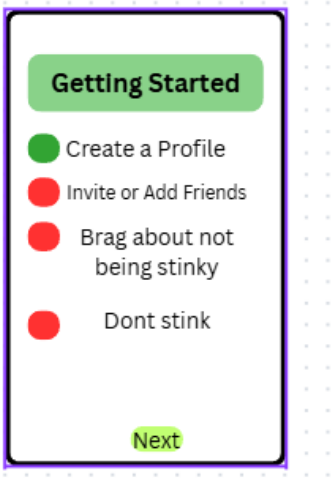
Getting started page: Press next(begins creating profile):



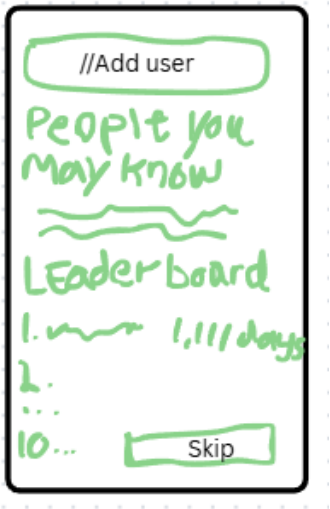
Creating Profile: Enter username and last time you used deodorant, then press next:



Green bubble indicates task complete, user presses next:

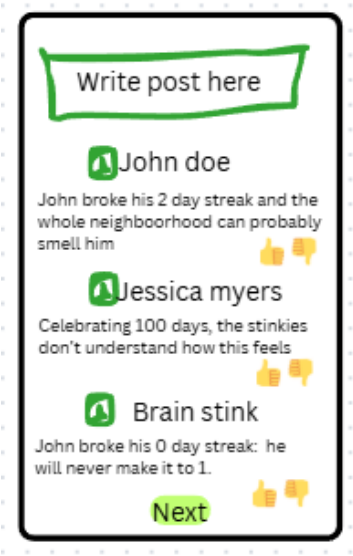


Add user(friends) at the top, also shows people you may know,
Can also add people from leaderboards, or skip:



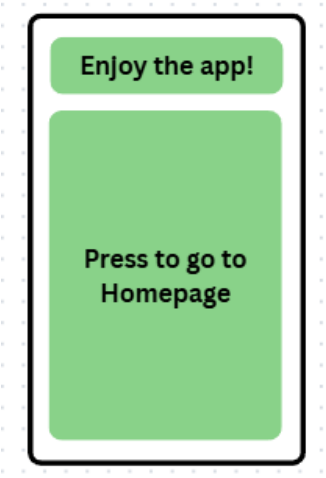
Green bubble indicates next task completed:

Encourages use to learn how to post: Can like or dislike others posts:



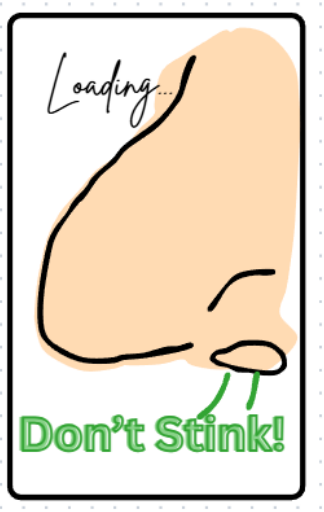
All tasks complete! (don't stink is just a silly one that automatically completes if you logged your last deodorant use in the profile)

You can now go to the homepage!

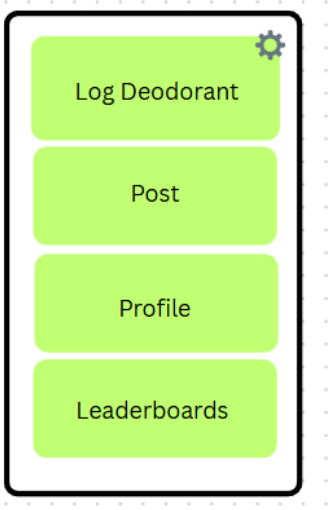


Logging your deodorant scenario:

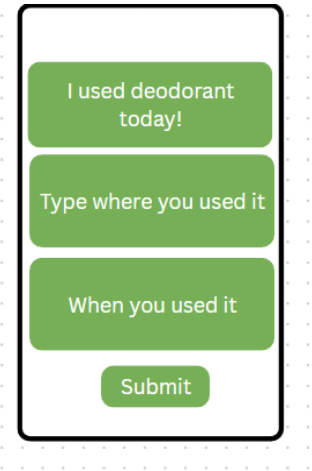
Loading screen:



Home screen(were u press log deodorant):

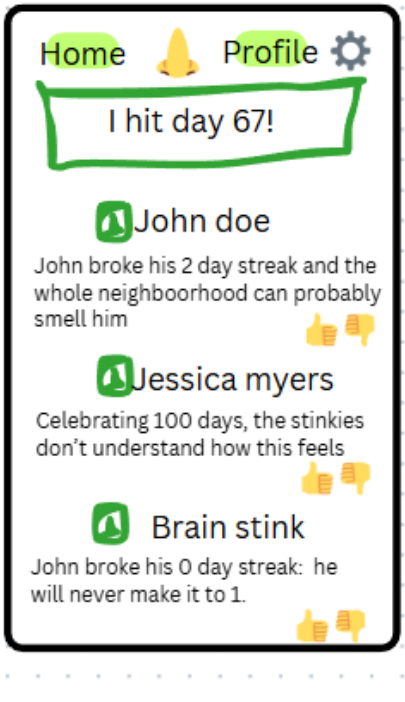


You then type where you use it and when you used it and submit:



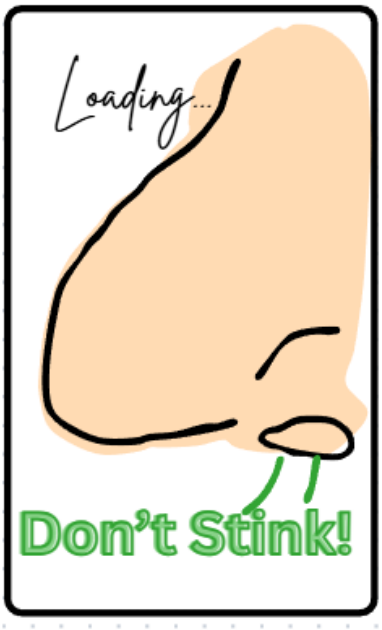
You then get to see your streak amount and are prompted to post about it:

Once you hit brag it automatically types in what day you are on and will put an automated funny post for the streak you are on.

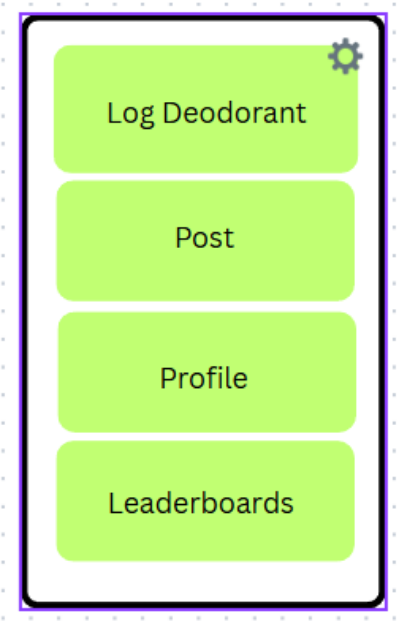


Leaderboard scenario:

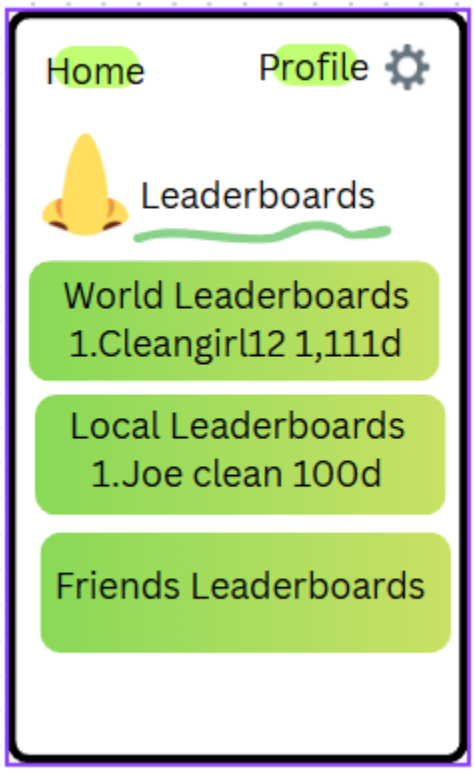
Loading:



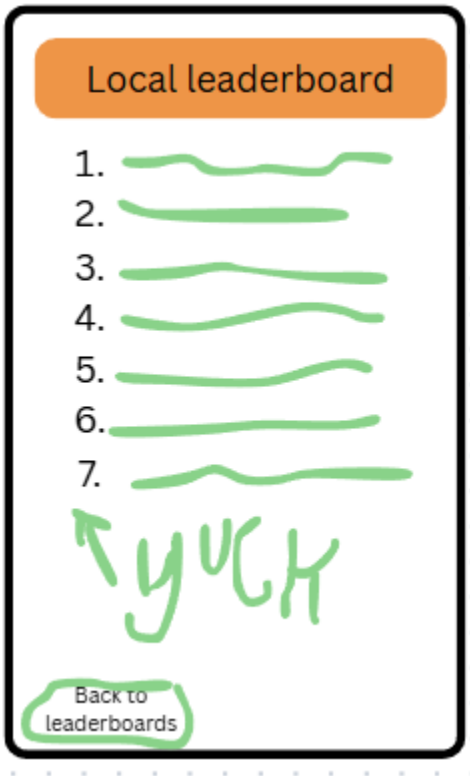
Home screen(select leaderboard):



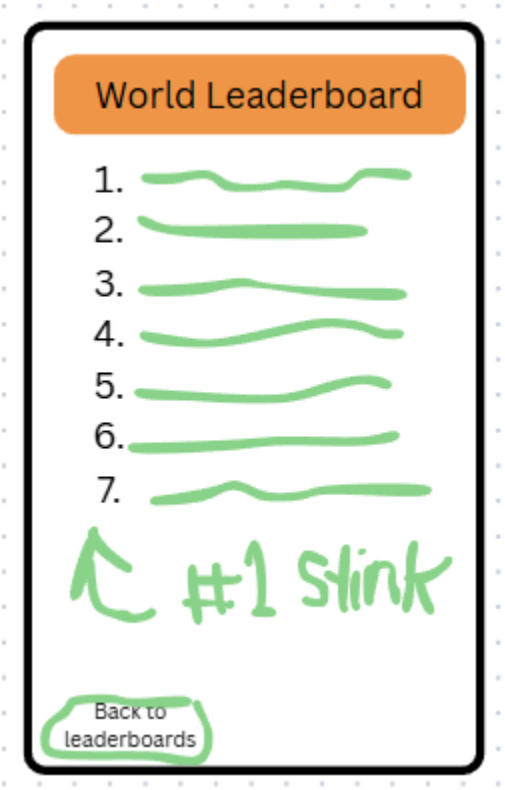
Option of three leaderboards(local and world show #1 streak:

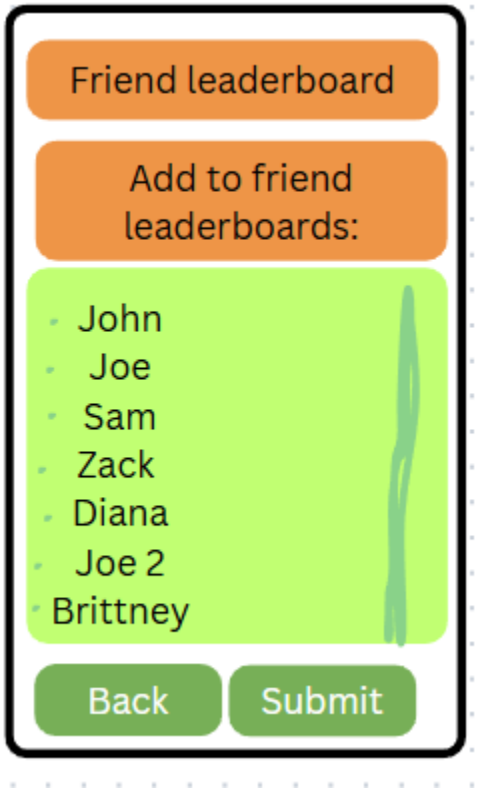


If you press local:



If you press world:



If you have a friend leaderboard(you can have multiple):


You can add friends to each friend leaderboard from pressing the add friend above and are prompted with this screen:
